CHAPPAQUIDDICK AT 25

19 July 1969 is not only the day the Sandinistas kicked Somoza out of Nicaragua and the day a man on the moon took a giant step for Mankind but also the day (ØlØØ) Mary Jo Kopechne, passed out on the backseat of Ted Kennedy's Oldsmobile, dove off the Dyke Bridge into the water of Chappaquiddick's Poucha Pond.

Media dove headlong into a slef-deluding variation of the Lone Assassin Myth. Gussied-up this time on a Summer's-Night on the Beach with a Blonde, the senator was trapped into becoming his own Patsy. The Campaign 72 Truth was smothered in sex.

In marking the 25th anniversay of this murder, A & E's two hours of self-contradictions mentioned the presidency in the very last line. One Boston Globe article missed it completely. Another came close with "scandal" in its subtitle. A third, right-on with its headline CRASH LEFT SENATE CAPSTONE OF KENNEDY CAREER, never even peeked at the CRASH. The NYTimes came closest with a Holy Cross University student looking at the hurrican-souvenir ravaged Bridge:

> ... we're here to see what kept another Kennedy from being President .... it doesn't look like much ....

The Campaign 72 Truth stems from the 1963 Coup d'Etat.
In November '68, CREEP, the Committee to Re-Elect the President, finding EMK the front-running Democrat opponent of the November'72 election, targetted him as the enemy. Eight months later, Mary Jo's asphyxiation in Poucha Pond eliminated the threat of the third Kennedy brother ... a real feather in CREEP's cap.

What the textbooks don't show the next generation: In '64, LBJ was elected over the dead body of JFK. In '68, RMN was elected over the dead bodies of MLK and RFK. In '72, RMN was re-elected over the dead body of MJK, the politically dead body of EMK and the maimed body of GCW. The Conspiracy's White House Control was operating on all 16 cylinders.

when you have eliminated the impossible,
whatever remains, no matter how improbable,
must be the Truth.
Sherlock Holmes

THAT SILLY MISSILE ..... AGAIN!

In the May issue of Journal of the American College of Surgeons, an article by Dr John K Lattimer, Angus Laidlaw, Paul Heneghan and Eric Haubner (JKL et al) is titled : EXPERIMENTAL DUPLICATION OF THE IMPORTANT EVIDENCE OF THE LAPEL BULGE OF THE JACKET WORN BY GOVERNOR CONNALLY WHEN BULLET 399 WENT THROUGH HIM.

Scratch that silly missile and this experiment rates a Navy 3.5

It has the Governor hit at Z-223 - 224. One test bullet tumbles thru the simulated thorax, removing part of a rib and exiting under the right nipple before fracturing
...one of the forearms arrayed infront of the jacket ....

The video-tape of that shot shows the Jacket-Bulge and its Lapel-Flap as seen in Z-film. More importantly that test bullet
... had already passed through the model of the neck of Kennedy to make it tumble....

To nail this experiment down forever, another test bullet is fired thru the Connally thorax without first passing thru the Kennedy neck. A direct hit, at greater velocity and not tumbling, this other test bullet creates neither the Jacket-Bulge nor the Lapel-Flap. ERGO : no tumbling , no bulging , no flapping.

To further erase any doubts, the motions of Kennedy's and Connally's right arms show both men reacting similarly at about the same time. ERGO : Bullet 399 traversed both men : Q E D.

That silly missile does not Q E Demonstrandum one tiny bit. It translates Q E D as Quasi Equine DUNG, of which there is an overabundance.

There is no quarrel with
1) JKL et al's proof that only a tumbling bullet can cause the Governor's Jacket-Bulge and Lapel-Flap after Z-223 - 224.

2) Itek Report's graph of the similar right-arm motions bears witness to both men being hit about the same time. JKL et al finds Z-223-224 while GKG finds the President hit at Z-220 and the Governor hit at Z-222. Too close to quarrel.

However ... there is nothing but quarrel with the authors' assumption in title, text and caption that Bullet 399 traversed the President's neck, the space between the two men and the Governor's thorax and right wrist. The silly missile did none of those things. But ... a tumbling bullet does wound the Governor four times.

That CE 399 assumption by the authors is pulled out of the thinnest of thin air. Connecting the Back Wound to the Throat Wound, that silly missile's track is made of the neck-traverse stuff found only in the ordered, dictated autopsy report. The written sequel to pre-autopsy's removal of evidence, it transmogrified the Throat Wound of Entry into one of Exit, Coverup's Fast Track ever since. →

GKG·3··· VIII/94

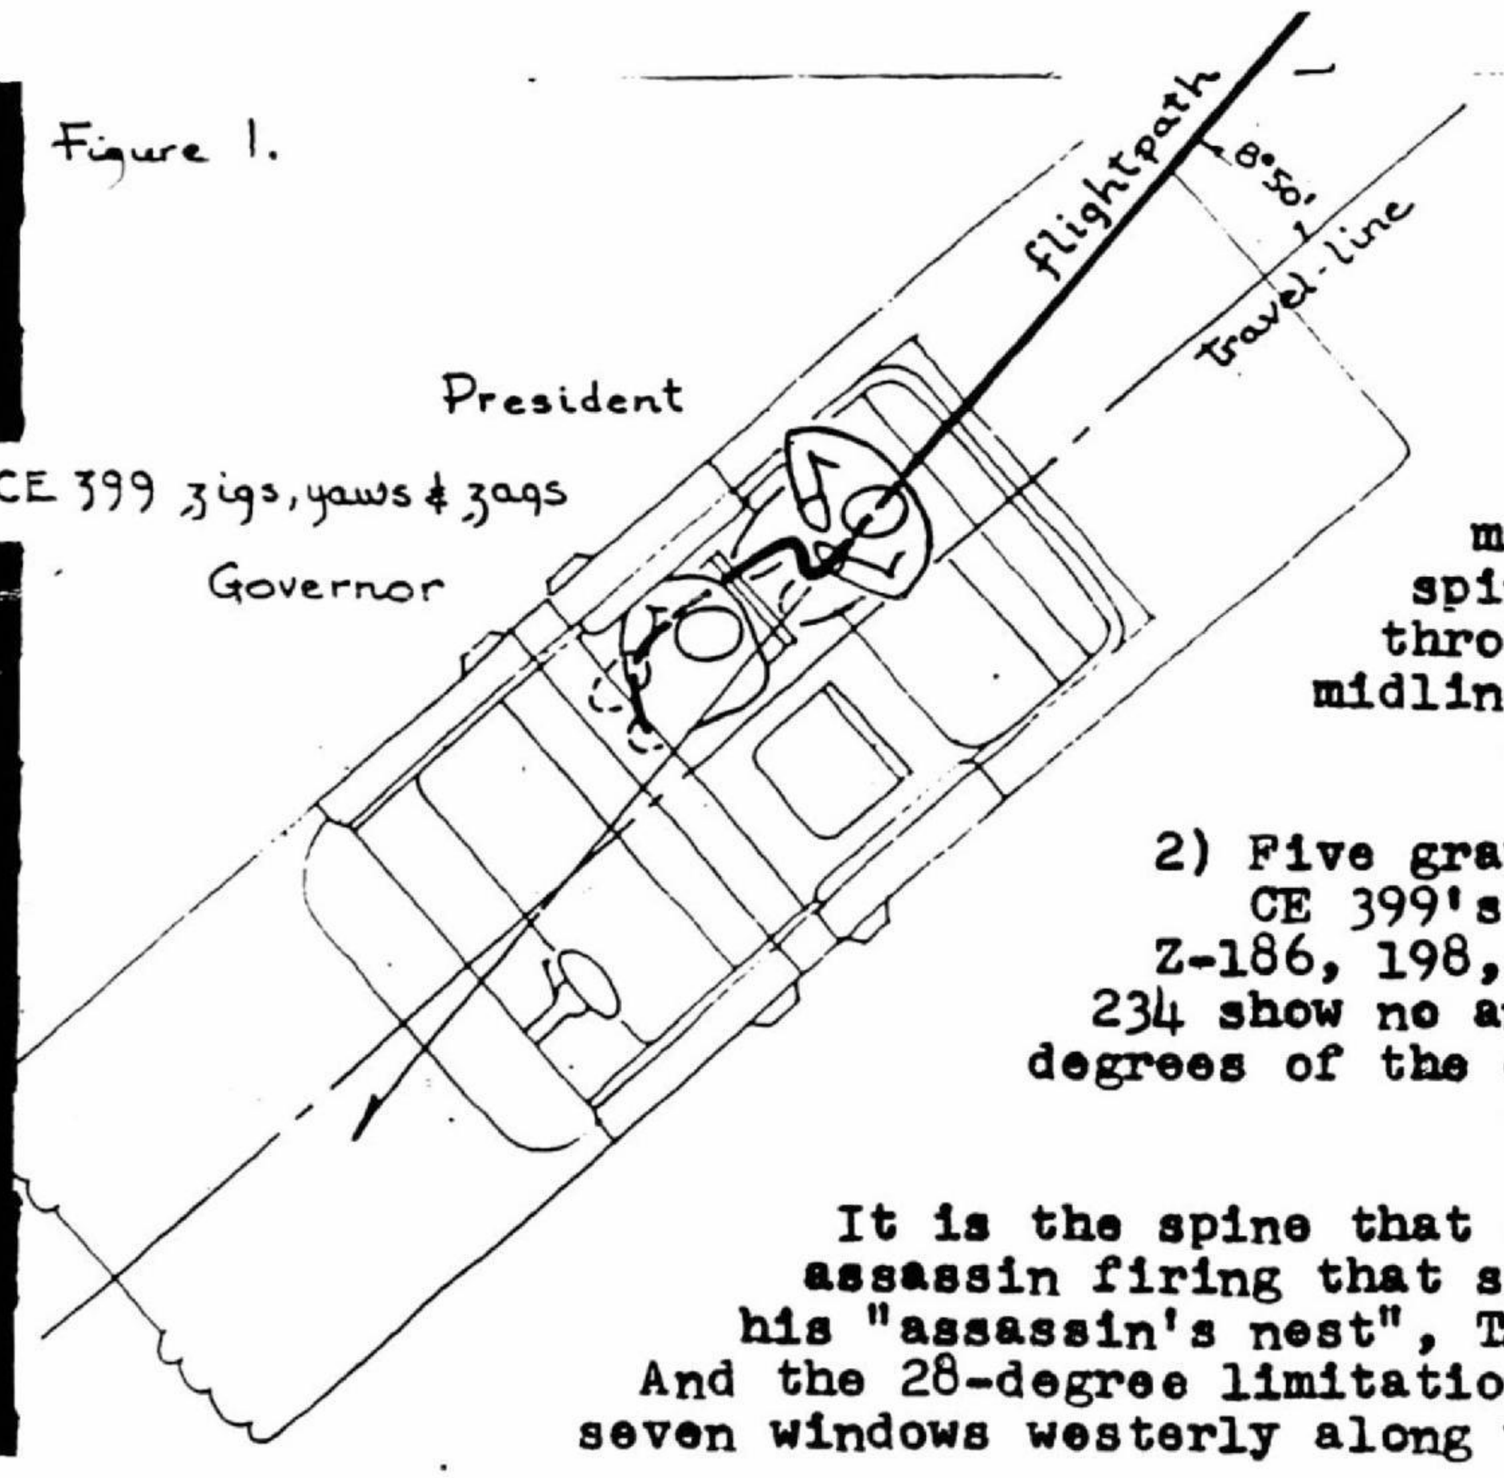
....AND AGAIN....

Assistant Commission Counsel's legalese is the only stuff slick enough to connect the Throat Wound to the Chest Wound. Tenuous at best, its innate mendacity provides the fibre to span the abyss.

After three decades of this flibberty-gibbett flightpath's tracking thru the President's neck, over the space between and through the Governor's thorax and right wrist, these impossible meanderings remain the Media/White House first line of offense/defense for continuing coverup of the Truths of Dealey Plaza.

Co-incidentally, as JKL et al went to press, GKG combined two bits of 1969 research into a long-overdue fine-tuning of THE FLIGHT OF CE 399, the first diagramming of the Single-Bullet Theory.

Figure 1.



1) Dr John Nichols' Shaw trial testimony informed the jury that a bullet fired into the back must enter 28 degrees to the midline to clear the spine and exit the throat at that same midline. (Figure 2)

2) Five graphic tests of CE 399's flightpath at Z-186, 198, 210, 225 and 234 show no angles within 10 degrees of the doctor's 28. (Figure 1)

It is the spine that eliminates the assassin firing that silly missile from his "assassin's nest", TSBD window VI #1. And the 28-degree limitation takes the next seven windows westerly along with it.

Furthermore, Figure 2 shows the Throat Wound connected to the Chest Wound ....now hear the word of the Lord .... by an airway of baloney, verbiage and gossamer encumbered by a built-in zig-yaw-zag that defies both gravity and commin-sense.

With a little bit of luck, someone with Media connections may catch THE SINGLE-BULLET THEORY DIES AGAIN and sense the Grassy Knoll's vibes. (see page 8) In this, the fourth decade, even as THE FOURTH DECADE, VII/94 issue, page 20, slides around the Throat Wound of Entry, ... the TRUTH WILL OUT.

... AND AGAIN....

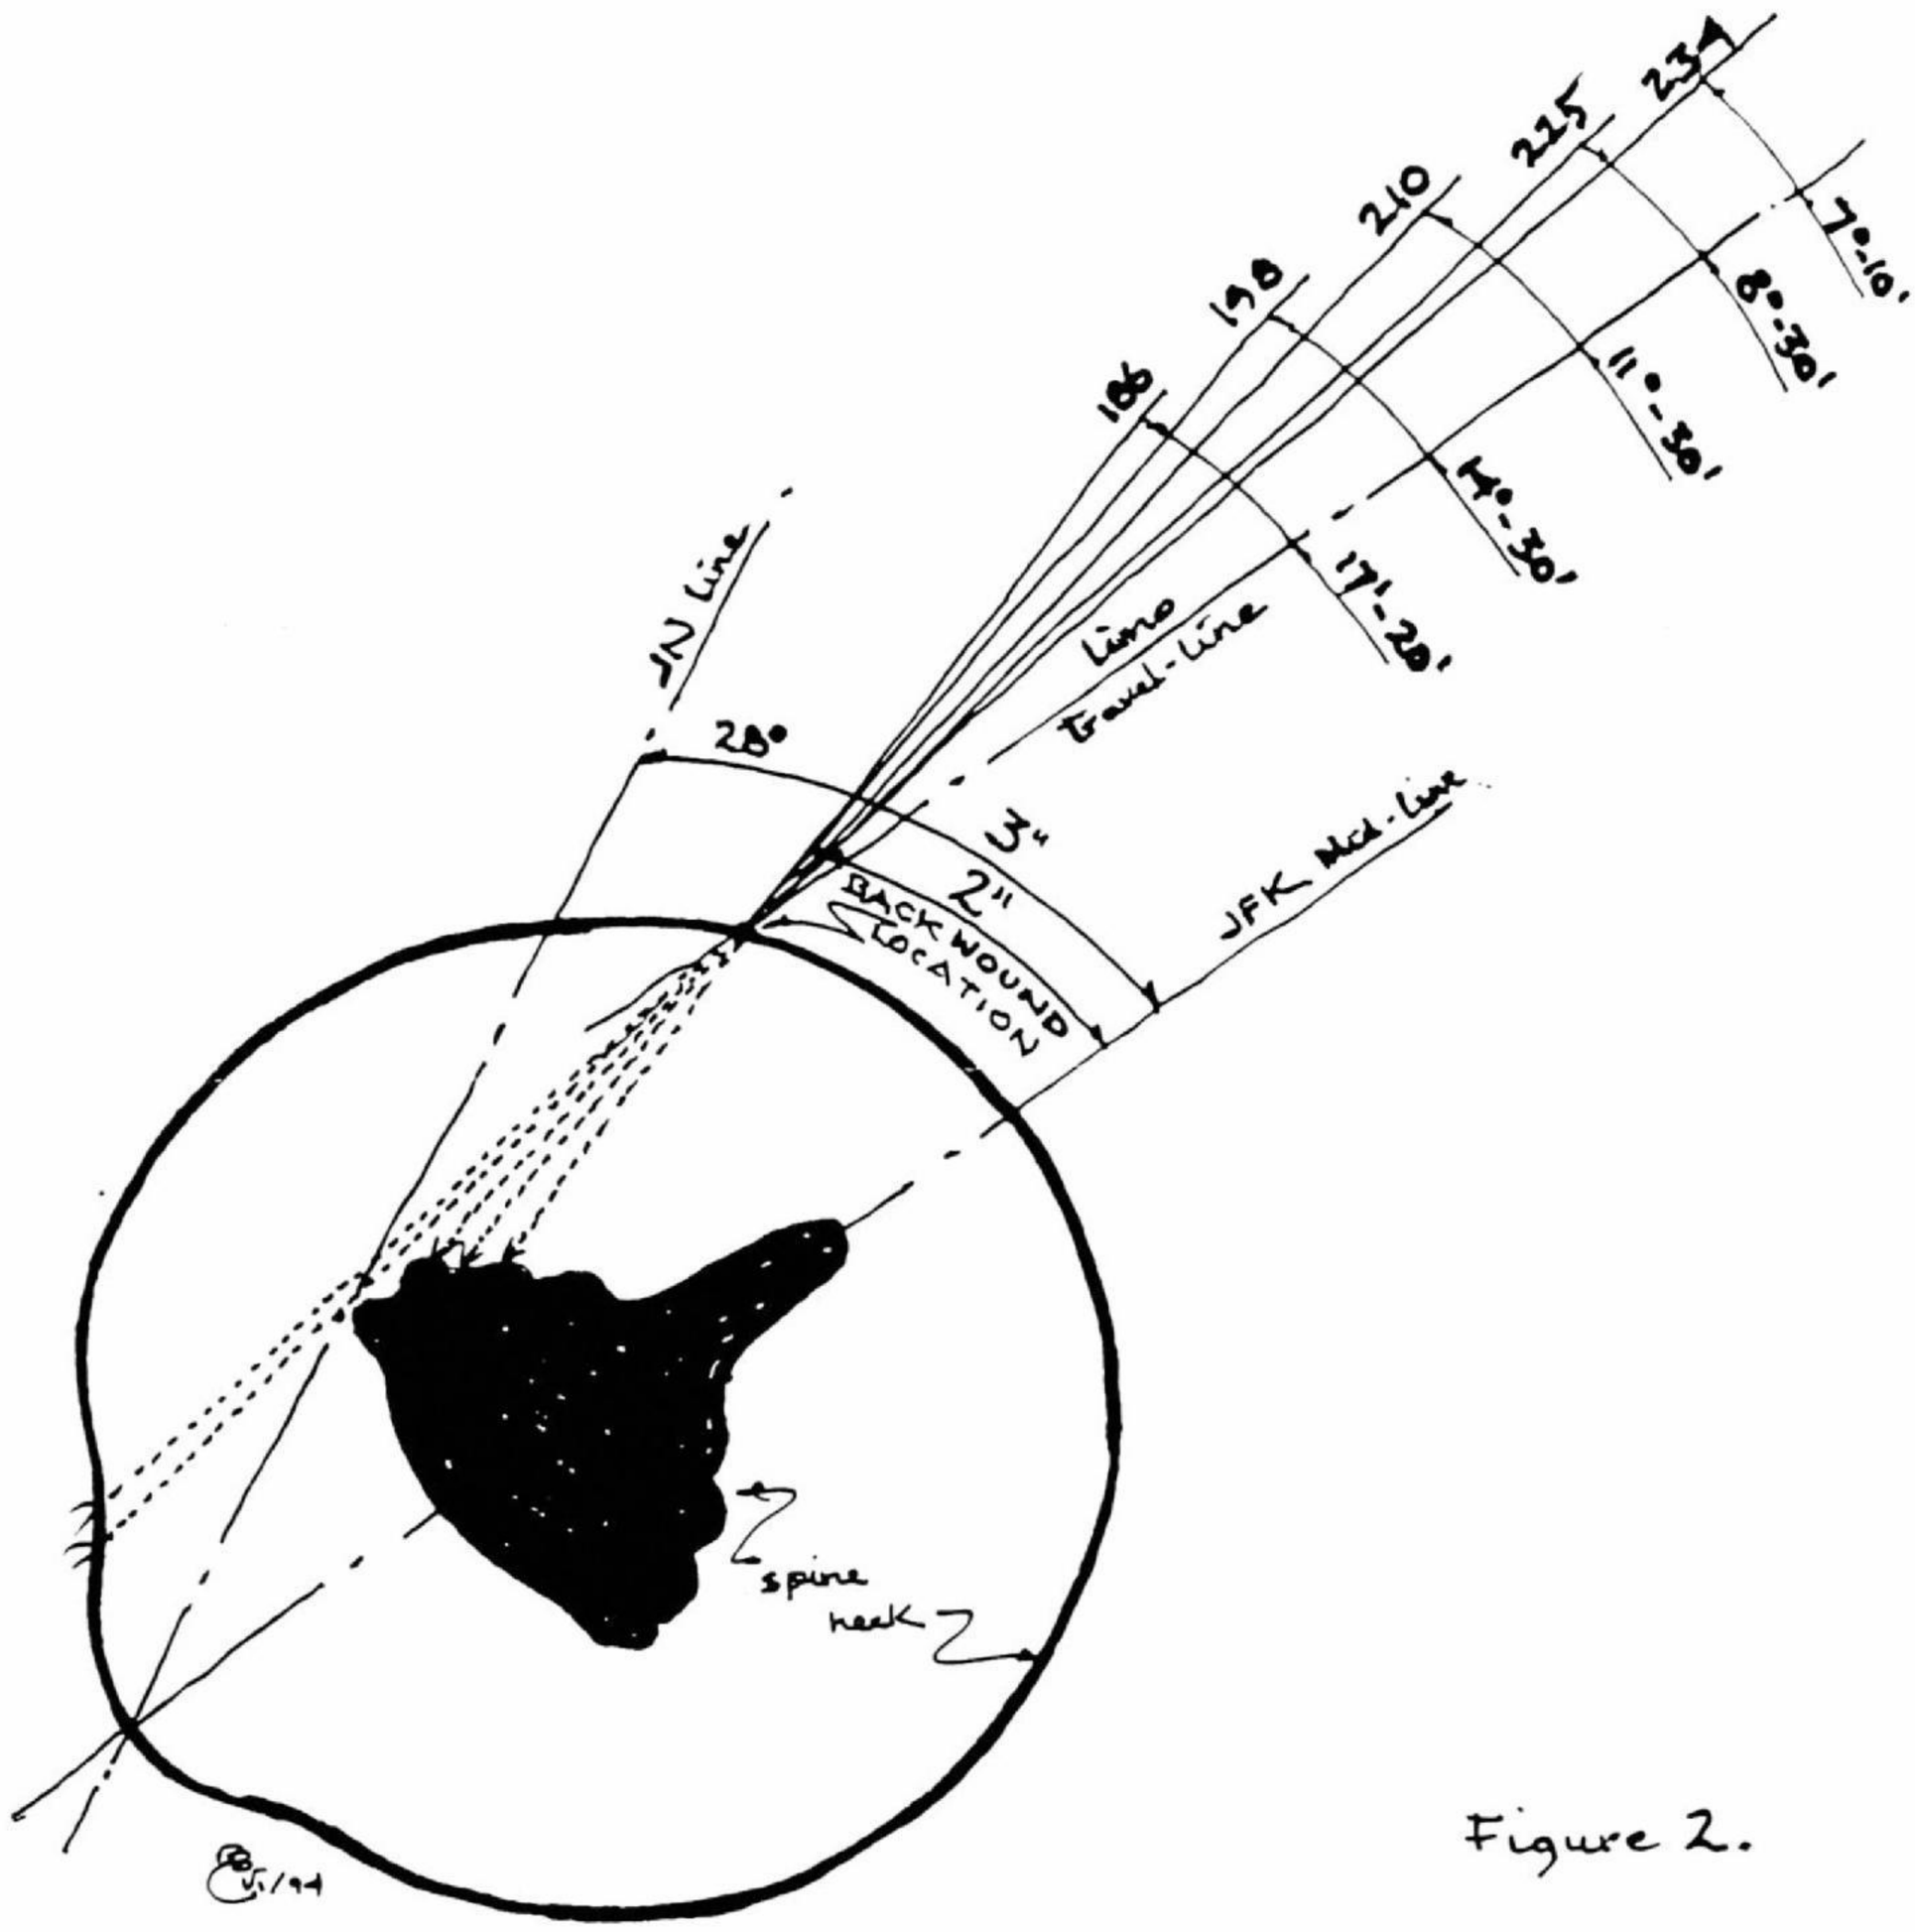


Figure 2.

FIVE FLIGHTS OF CE 399 -----

Because JFK's body-direction changes but slightly during these five tests, its mid-line was drawn parallel to the limo's travel-line.

GKG.5 ... VIII/94

...AND AGAIN! (concluded)

Combining these two old chestnuts, three of the flightpaths come a-cropper on the spine. Two manage to squeak by and exit the anterior neck. Fudging these two to exit closer to mid-line will not prevent them from wounding the Governor on the leftside, the wrong-side of his thorax.

Common to all five test flightpaths, this S-BT demolisher forced Staff, HSCA into ignoring Z-film's truth. Sliding the Governor left, half-off his jumpseat allowed a straight flightpath to wound the Governor on the rightside of his thorax. Incidentally, this is where a tumbling bullet actually entered and traversed both his chest and right wrist.

In Conclusion :

I. Applause for the successful tumbling-bullet experiment duplicating the Governor's Jacket-Bulge and Lapel-Flap.

II. A Bronx Cheer for the assumption that silly-missile CE 399 could possibly coverup four of Dealey Plaza's Crossfire Truths.

1. The Throat Wound of Entry is inflicted by the Umbrella Man's, Novel's, flêchette from the Grassy Knoll at Z-187.
2. The Back Wound is inflicted by Santana's second round from the Dal-Tex Building at Z-229.
3. The Chest Wound is inflicted by Seymour's first round from TSBD's window #14. Tracking the President, he fired early. The bullet ricochets off a twig and tumbles thru the Governor's thorax and right wrist.
4. Hidell, alias Oswald did not fire a shot that day.

From this Ivory Tower it seems that Specter, Belin, Blakey, Baden and JKL et al, the Old Guard has lived five of S-BT's nine cat-lives. That means it's time to pass the baton on to Posner, Moore and Vaughan, the Young Turks champing at the bit to write the sequel to this Bulge-Flap piece.

BULLET 399 WOUNDS CONNALY'S THIGH, RIDES FEMUR TO HOSPITAL

AND TUMBLES OUT ONTO STRETCHER ..... AND EVERLASTING FAME.

good luck

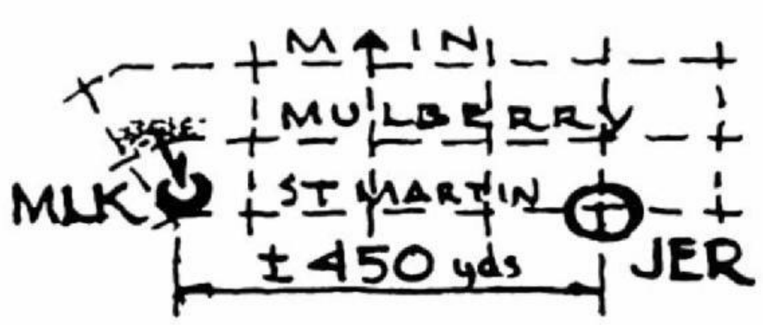
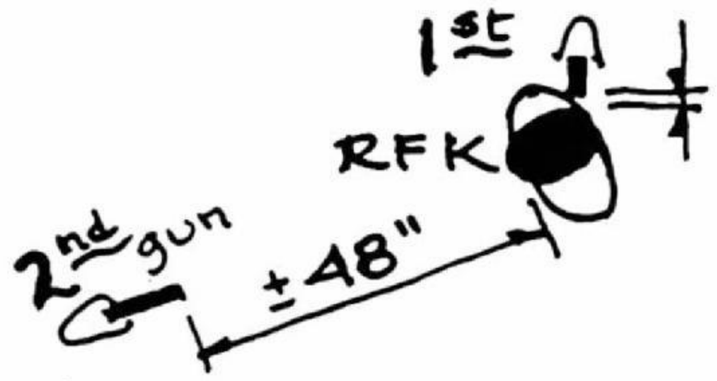
WHO DID? WHO DID? WHO DID?

Fifty years of American History is bogged down in the CIA/FBI coup d'etat that assassinated the President and established NSC control of the White House. It can be rescued and corrected when and if these three murders (below) can be solved even as the President's murder is solved, today. The record set straight, historians can then get on with their text-book explanations.



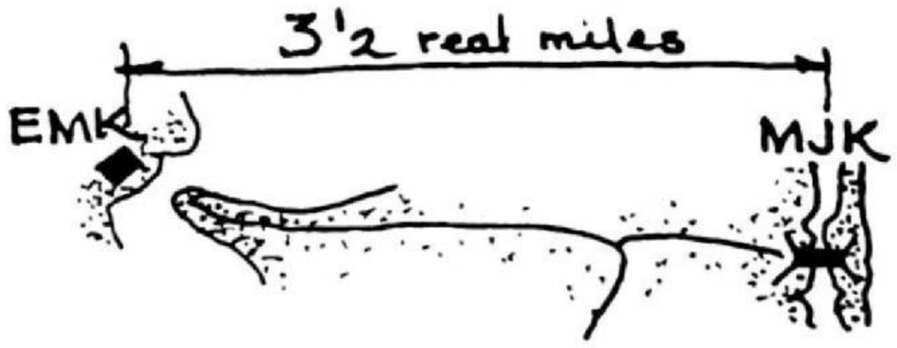
James Earl Ray has been incarcerated for 26 years as the "convicted assassin" of Martin Luther King jr.
At 6 pm, IV/4/68, James was a country mile (±450 yards) from where the Bushy Knoll assassin fired one shot across Mulberry St and killed MLK.

If James did not kill MLK, WHO DID ?



Sirhan B Sirhan has been incarcerated for 26 years as the "convicted assassin" of Robert F Kennedy.
At 1215 am, VI/5/68, when the 1st gun fired the fatal shot from 2" BEHIND RFK's right ear, the 2nd gun, Sirhan's, was + 48" IN FRONT of the candidate.

If Sirhan did not kill RFK, WHO DID ?



As of the 19th of July, Senator Ted Kennedy has been known for 25 years as the murderer of MJK.
At 1 am, VII/19/69, when Mary Jo dove off the Bridge in the senator's Oldsmobile, EMK was being detained in his hotel room 3.5 real miles away.

If EMK did not kill MJK, WHO DID ?

As the nineties fumbel-bumble thru Autonomy and Arbitration toward the self-government of Anarachy, the file-openers who passover the political assassination of Edward Moore Kennedy will need more than double-speak-and-duck to avoid the boomerangs poised and circling just outside the Beltway.

Six hours after John Farrar had removed MJK's body from the rear compartment of the Oldsmobile, JEDgar, the Director received confidential information from FBI Boston that the automobile's driver, not yet identified, was in fact Senator Kennedy.

With FBI Division Five in over its ears in JFK, mothering LAPD in RFK, someone better damn well open the EMK/MJK files.
